Shipping

We can freight your purchase anywhere within New Zealand. Delivery for items in stock is normally 1-3 working days to urban areas. Most items are shipped overnight, nationwide, excluding Stewart Island. We can ship internationally on request.

We have categorised our items by their size and/or weights into the following grades.

Level 1 – Standard/small items = \$6.85

Level 2 – Signage (small but heavy) = \$8.93

Level 3 – Small toolboxes = \$13.11

Level 4 – Medium toolboxes, light industrial ramps = \$18.48

Level 5 – Heavy industrial ramps, large toolboxes = \$21.37 or \$36.26

Level 6 – Other large/heavy items that need to go on a pallet = \$49.90 or \$72.74

In addition to that, we have a calculation which either combines, or accumulates the shipping fees, based on the items' nature.

A large pair of industrial ramps, for example, would be a Level 5, Accumulated. This means that if a customer was to purchase 2 pairs, the shipping fees would be accumulate and a total of \$42.74 to \$72.52 would be required.

However, on the other hand, a small work light would be a Level 1, Combine. This means that if a customer was to purchase 20 lights, the shipping fee would stay at \$6.85.

We also don't ship on public holidays, weekends (Saturday Deliveries on request at an additional cost), and to PO Boxes.
